

GET READY TO RECYCLE & COMPOST AT SCHOOL

Webinar
10/21/2021
11am

Join in the conversation!

Learn about the best practices for creating the physical and social infrastructure for recycling and composting at school.

Hosted by Northern California Recycling Association.

AB 827 requires schools to recycle and compost. NCRA Zero Waste Schools Committee is curating the best practices for physical infrastructure here:

<https://ncrarecycles.org/zero-waste-schools/>

But how do we get students, faculty and staff to support the program and sort properly? Come to this webinar and share out!

Speakers will include: Brett "Mr. Eco" Edwards - Environmental Rap Superhero, Local Leaders of the 21st Century - Pleasanton Unified, and Alina Bekkerman - City Success and Research Manager, Litterati.

This is the fifth webinar in a series hosted by the NCRA Schools Committee. We strive to help schools reduce waste by sharing resources, best practices and case studies from K-12 schools.
